Introduction

This list is compiled from the CENTAUR system (our database of Export Health Certificates) and includes all certificates available on the date specified above. The list will be updated at the start of each week.

The EHCs are sorted by country then by HQ commodity section then by number. The list shows the signatory for each certificate. The key below should be helpful:

HQ Commodity Section (HQ):

This is included to make it easier to find certificates.

91 – Livestock

92 – Cats and dogs / small mammals

93 – Horses

94 – Germplasm (semen & embryos)

95 – Animal products

96 – Birds

Whilst we will endeavour to keep the list up to date, you are advised to confirm availability and obtain a specimen of the certificate from [Animal Health and Veterinary Laboratories Agency \(AHVLA\)](#) before submitting any applications, making travel plans, confirming orders etc.
